

Case Studies

Trackwork/GTR Trains - Bedford depot road 3 additional switch works Jan 2022 – to date

Client identified requirement to be able isolate road 3 independently of the rest of the depot. Worked closely with client and designer (Sub – contracted to Krause and Hall) to identify a number of differing options to provide this facility, Selected option then taken through to delivery of works.

- Provision of full Turnkey OLE installation team inclusive of CRE
- Design, design management, Foundation, structure and OLE Installation inclusive of section proving.
- Material Supply
- Contract - NEC 4 Option A

Case Studies

Story Contracting - Lindsell's Level Crossing OLE support for Installation of new Footbridge

November 2020 to Feb 2023

- Provision of full Turnkey OLE installation team inclusive of CRE and PE
- Bonding, OLE adjustments, Component renewals and Material Supply
- Contract - Purchase Order

"Krause and Hall provided a service when Story's needed it most, Providing PE and CRE Nominated staff through to the full installation team. Responsive and full of enthusiasm to get the Job complete safely and within budget. Great work from the Krause and Hall team, would certainly recommend for future works."
